

## Opinion 2:

Kid should go outside

Yes because they can't Just sit there all day and don't do there homework or they will Just care about tv and don't get the technology they need in there life. If they Just sit there waching tv they won't have a lot technology to get a good Job and they need to go to school. Beside if they sit there all day they won't technology. I think parents should let there kid's wach tv for an hour and 30 min it gose for the same for xbox 360 or xbox 1 or whatever they have if they don't want to go outside tell them to read a dictionary or a thesaurus or study some languages, science now that will really going to make the kid want to go outside.

### Organization/Purpose – 1+

- Opinion is clear (Kids should go outside).
- Weak introduction and conclusion
- Ideas are randomly ordered and are confusing (switches between don't watch TV to watching TV)

### Evidence/Elaboration – 2

- Some style noted (science now that will really going to make the kids want to go outside).
- Little to no use of elaborative techniques
- Unclear definition of 'technology'

### Conventions – 1

- Spelling errors
- Run-on sentences
- Sentence structure (Beside if they sit there all day they won't technology.)
